## Basalte iPad mounts used in Apple global offices

Basalte is very proud to announce that its Eve iPad mounts are used in Apple offices worldwide for applications like visitor registration, meeting room management etc.

According to Basalte, Apple was convinced by the mount's minimalist look, which only adds the bare minimum to the iPad's iconic design. Eve is also precision machined from high-quality aluminium.

Consequently, Apple decided to use Eve mounts in its offices all around the world: from Singapore and Japan to London, India and even in California! The Eve custom glass mount version was actually created to match Apple's requirements.

Basalte is more than proud to have its product selected by Apple, a company with an unmistakable influence on modern technology design. Basalte will continue to update the Eve mounts as Apple introduces new iPads, adding them to Basalte's current range for iPad mini, iPad, iPad Pro and iPod touch.

Apple, iPad, iPad mini, iPad Pro and iPod touch are trademarks of Apple Inc.
