## Basalte presents new Eve mount for iPad Pro 9.7"

Eve mounts also available for other iPads and iPod touch 5-6

At Architect@Work Kortrijk, Basalte shows its new wall and table mount for iPad Pro 9.7". Eve Pro is made of high-grade aluminium and keeps the iPad continuously charged. The easy installation and optional security version makes this the perfect solution for both residential as public projects.

Basalte develops design mounts for iPad and iPod touch, made of high-quality aluminium in a refined, minimalist design. The mounts come in three finishes: brushed aluminium, brushed black and satin white. They are easily mounted on the wall using two screws and have charging available, thanks to the Puck. This converts 12-24V DC to USB and fits in a standard wall box. Lock the iPad in the mount using the optional security cover, preventing unwanted extraction.

Eve wall mounts are also available for the new iPad recently presented, iPad mini 1-4, iPad Air 1-2, iPad Pro 12.9" and iPod touch 5-6. Eve is additionally available as a table top solution for the new iPad, iPad mini, iPad Air and iPad Pro 9.7".

Basalte demonstrates Eve, its new S4 music server, its active speaker concept and much more at its **stand #284 – Architect@Work Kortrijk**.
